

Health Technology Committee Meeting Agenda	
March 9, 2016	12:00 – 12:50; N304 (Dean's Conference Rm)
Dr. Erica Teixeira, Chair	Recorder: Ms. Michelle Krupp

Agenda Items	Responsible Individual
1. Approval of February 10, 2016 Minutes	E. Teixeira
2. Updates: True Definition Integration- BAA, use, billing DSG lab services for College Maintenance Costs – CEREC Club	Medin/Garcia
3. Onsite Training Opportunity – CEREC/Sirona Dr. Richard Fox March 21 – 22, 2016	E. Teixeira
4. Online Training Opportunity – 3M True Definition	Vargas/Garcia
5. Update: Clinic Operations Manual – Ch. 4: Infection Control	E. Teixeira
6. Next Meeting: <a href="#">April 13, 2016</a>	

Action Items			
Status	Action to be taken	Responsible	Due Date
Pending	HTC Content on Intradent	Maia/Garcia	
Pending	Electric Handpiece Work Group – Task Force Updates	Vargas	

#### Health Technology Committee (2015-2016)

Erica Teixeira, Chair  
 Piriya Boonsiraphant  
 Manuel R. P. Gomez  
 David A. Jones  
 Leonardo Marchini  
 Charles W. McBrearty  
 Ivan Medin  
 Patricia K. Meredith  
 Michael D. Murrell  
 Rodrigo Rocha Maia  
 Kyle Stein  
 Marcos A. Vargas  
 D2 – Erica Recker

Ex Oficio:  
 Veeratrishul Allareddy, University Academic Technology  
 Advisory Committee  
 Ronald D. Elvers, Director of Clinics  
 Lily T. Garcia, Associate Dean for Education  
 Galen B. Schneider, Executive Associate Dean

## Health Technology Committee Minutes – March 9, 2016

**Members Present:** Dr. E. Teixeira (Chair), Drs. Lily Garcia, David Jones, Leo Marchini, Michael Murrell, Rodrigo Rocha, Kyle Stein, Marcos Vargas, Ron Elvers, Mr. Ivan Medin, Mr. Chuck McBrearty, Ms. Michelle Krupp

**Members Absent:** Drs. Piriya Boonsiriphandt, Patty Meredith, Galen Schneider, Erica Recker – D2

Meeting called to order – 12:03 p.m.

- I. Motion to approve HTC minutes of the February 10, 2016 meeting passed.
- II. Updates– Mr. Ivan Medin & Dr. Lily Garcia
  - True Definition Scanner Integration – Everything is in place but waiting for the business agreement. Once the agreement is finalized, True Def will be online and ready for use.
  - DSG services for College – DSG visited COD last week. The Dental Laboratory Technicians (CDTs) will meet with Dr. Garcia to review responsibilities. DSG suggested trial usage in order to understand the workflow and assess the quality.
    - Dr. Garcia emphasized that use of DSG services will not replace our local affiliations, only enhance our laboratory support.
  - Maintenance Costs – With recent purchases, the COD receives the CEREC/Sirona “Club” at no cost; this includes limited training, maintenance, and software updates. However, the renewal cost is \$10,000 so other maintenance options are being explored.
  - PlanMeca/E4D: Two scanners are broken and replacements have been ordered.
    - Mr. Medin commented that he is noticing that the E4Ds require more maintenance. Concerns arise after being left “on” for extended periods of time. The COD is an ‘industrial’-use environment associated with our student-population volume use.

### **ACTION ITEM:**

- III. Onsite Training Opportunity – Dr. Erica Teixeira
  - CEREC/Sirona is sponsoring Dr. Richard Fox – March 21-22, 2016
    - March 21 – focus will be on basic training, all day session
    - March 22 – focus will be more advanced training, i.e., software updates. Two repeated sessions will occur in the am & pm on this day.
- IV. Online Training Opportunity – Drs. Marcos Vargas & Lily Garcia
  - 3m True Definition – Live webinars are available for faculty. Dr. Teixeira requested that committee members tell their departments about this free training opportunity.

**ACTION ITEM:** Committee members distribute info/flyer that was sent with today’s agenda to colleagues.

- V. Update: Clinic Operations Manual – Ch. 4 Infection Control – Dr. Erica Teixeira

- CEREC changed infection control protocol; recommend use of CaviWipes. CEREC continues to modify disinfection/sterilization protocol, which is posted on the machines.

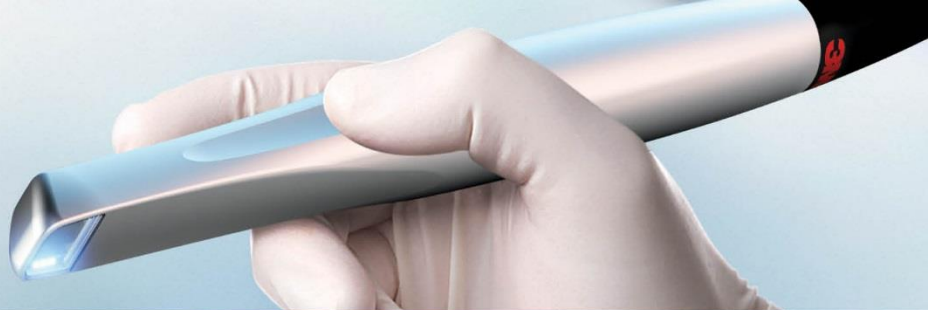

VI. Other

- Dr. Garcia initiated discussion regarding the costs and types of maintenance for scanners. The misuse of the equipment was briefly discussed. Mr. McBrearty suggested that we need to follow company protocols, educate/inform students and faculty, and determine if problems are caused by the users or faulty equipment. Key points that need to be further discussed:
  - Systems might not be able to handle 'industrial' use.
  - Should there be consequences of misuse? Should students be held accountable for misuse, i.e. technical fee prorated, tied to grades, etc.
  - Committee needs to decide if we need multiple systems – would it be beneficial to just have one system or do we need multiple?
  - Scanners & software are used for assessment. Have to consider how course directors are using the system.

**ACTION ITEM: Develop tutorial how to use digital scanners with caveat that if you are not trained, you cannot use. Mr. Medin will continue to keep track of maintenance trends then Dr. Garcia can follow-up with companies with specific details.**

Next meeting on April 13, 2016.

Minutes recorded: Ms. Michelle M. Krupp

## 3M<sup>SM</sup> Health Care Academy

# Live Webinars

## 2016 3M<sup>TM</sup> True Definition Scanner Web Training

### Live Webinar Information

#### Who should attend?

Registration is recommended for dentists, orthodontists, dental assistants, dental hygienists, and staff members who wish to learn more about the 3M<sup>TM</sup> True Definition Scanner and the benefits it will offer your patients.

#### Why attend?

In addition to the recorded webinar, which is a part of your integration training, these live webinars will ensure you are utilizing the 3M<sup>TM</sup> True Definition Scanner to its fullest capability. **You will be introduced to the most current protocols on scan path, bite registration and disinfection recommendations.** Your attendance will allow you to ask questions and get answers in real time.

#### Prerequisites?

To maximize your time and provide you the most valuable information, all attendees are encouraged to have previously participated in the recorded webinar and clinical training in office. Access to the recorded integration webinar for initial scanner training can be found at [www.3Mtruedefinitionsscannertraining.com](http://www.3Mtruedefinitionsscannertraining.com)

#### How do I Register?

Register for your preferred webinar at [go.3M.com/truedeflivewebinar](http://go.3M.com/truedeflivewebinar)

#### Content

Two consecutive courses will be offered by 3M Clinical Training Specialists on a monthly basis from 12pm-1pm CST (GP) and 1pm-2pm CST (Ortho).

**General Practitioners (GP):** This course will provide scanning fundamentals such as icon recognition, margin review, occlusal clearance, tissue retraction, and isolation. This course will also cover the most current protocols on scan path, bite registration, disinfection recommendations and implant workflows.

**Orthodontics (Ortho):** This course will provide scanning techniques for orthodontic cases including full arch and palatal scans. This course will also touch on open .STL files, digital models, and the 3M<sup>TM</sup> Connection Center.

Select one or both sessions when you register online.

#### When?

Live webinars will be offered every first Friday of the month from 12pm-1pm CST (GP) and 1pm-2pm CST (Ortho).

#### Cost?

The webinars are offered complimentary to new or existing users of the 3M<sup>TM</sup> True Definition Scanner.
