

Health Technology Committee Meeting Agenda	
May 11, 2016	12:00 – 12:50; N304 (Dean's Conference Rm)
Dr. Erica Teixeira, Chair	Recorder: Ms. Michelle Krupp

Agenda Items	Responsible Individual
1. Approval of March 9, 2016 Minutes	E. Teixeira
2. Updates: • True Definition Integration- BAA, use, billing • DSG lab services for College – trial by Dr. E.Teixeira • Maintenance Costs – CEREC Club (\$10K), H.Schein/PlanMeca • Ivoclar Vivadent – Wieland Mills • H.Schein license for PlanCad • 3Shape Scanner Update – McBrearty/Jones	Medin/Teixeira/Garcia
3. Role/Responsibilities/Location – Digital CDT, equipment, blocks (“secure dispensary” vs. open access)	Garcia
4. Intraoral camera – DSP purchase	E. Teixeira
5. Next Meeting: June 8, 2016	

Action Items			
Status	Action to be taken	Responsible	Due Date
Pending	HTC Content on Intradent	Maia/Garcia	
Pending	Electric Handpiece Work Group – Task Force Updates	Vargas	

Health Technology Committee (2015-2016)

Erica Teixeira, Chair
 Piriya Boonsiraphant
 Manuel R. P. Gomez
 David A. Jones
 Leonardo Marchini
 Charles W. McBrearty
 Ivan Medin
 Patricia K. Meredith
 Michael D. Murrell
 Rodrigo Rocha Maia
 Kyle Stein
 Marcos A. Vargas

D2 – Erica Recker

Ex Oficio:
 Veeratrishul Allareddy, University Academic Technology
 Advisory Committee
 Ronald D. Elvers, Director of Clinics
 Lily T. Garcia, Associate Dean for Education
 Galen B. Schneider, Executive Associate Dean

Health Technology Committee Minutes – May 11, 2016

Members Present: Drs. Erica Teixeira (Chair), Manuel Gomez, David Jones, Leo Marchini, Patty Meredith, Michael Murrell, Rodrigo Rocha, Kyle Stein, Marcos Vargas, Trishul Allareddy, Ron Elvers, Lily Garcia, Mr. Chuck McBrearty, Mr. Ivan Medan, Erica Recker – D2, Ms. Michelle Krupp

Members Absent: Drs. Piriya Boonsiriphant, Galen Schneider

Guest: Kyle Burnett

Meeting called to order – 12:03 p.m.

- I. Motion to approve HTC minutes of the March 9, 2016 meeting passed.
- II. Updates– Mr. Ivan Medin & Drs. Teixeira & Garcia
 - True Definition Integration – BAA, use, billing
 - o BAA originated through UIHC – 3M delaying agreement and do not want to capitulate to the University requirements. The process is under review by 3M legal.
 - DSG services for College – trial by Dr. E. Teixeira
 - o Dr. Teixeira has sent DSG patient cases, and has been pleased with the quality of work and sees this as something that could be good for the college. Faculty can send cases to assess the quality of their lab support.
 - Maintenance Costs – CEREC Club (\$10K), H.Schein/PlanMeca
 - o Dr. Garcia has talked with Scott Arneson regarding the service contract. The CEREC Club offers more services than needed. CEREC is not being very flexible and are not willing to customize for us. In order to maximize value, Ivan Medin and Kraig Ceynar will be go to training so we can maximize the 'club' benefits to its full extent.
 - o Dr. Garcia commented that Dr. Fox was found to be highly unprofessional in his interactions for the sponsored-training. If anyone else has comments, please send to her.
 - o Dr. Teixeira stated that overall usage of digital technology – CEREC – has increased after faculty participation in the training program
 - o Dr. Vargas requested a reminder that with current sterilization protocol after use of the OmniCam, remove the tip since it needs to be bagged for sterilization; a 40 minute process is required for sterilization.
 - Ivoclar Vivadent
 - o Increased usage of digital technology, i.e. chairside, intraoral scanners requires review of dental laboratory support services.
 - o Ivoclar Vivadent acquired Weiland Mills over two years ago. Ivan is reviewing dental laboratory services and locations in order to provide appropriate support for the predoctoral education program. Doug Anun

and others have been supportive and involved in realigning dental laboratory support for the predoctoral program.

- o Ivan will be relocated to “office” on the 3rd floor adjacent to the majority of activities. The milling machines will be moved to the 3rd floor.
- o Mr. Medin & Dr. Teixeira met with Ms. Emily Sexton, Kay Account Manager of Technical Products from Ivoclar Vivadent. A plan will be developed to explore acquisition of a Wieland mill or similar which will require additional facilities support such as air pressure.
- H.Schein license for PlanCad
 - o Students learn on the E4D Planscan on D1, D2 exposed to CEREC/Sirona & E4D/Planscan technologies, D3-4 can use either in clinic.
 - o PlanCad software to scan prep. Dr. Teixeira asked if this is something that PROS wants.
 - o Dr. Meredith noted that for the D2 year restoration – all made the deadline – thanks to Ivan. He has been a huge asset helping students and supporting faculty in clinic when needed.
- 3Shape Scanner Update – McBrearty/Jones
 - o Dr. Garcia spoke with Dr. Srinivasan from Orthodontics Ivan Medin and Dr. Teixeira have been part of the training.
 - o ORND will be using this scanner to give residents exposure and experience of scanning in the mouth. Installation and training scheduled for late May/early June.

ACTION ITEMS:

- **Dr. Teixeira will provide a summary of usage #s related to digital dentistry to the next meeting.**
- **Intraoral Scanner Use & Maintenance Training: Group assigned to develop the content/protocol with Chuck’s group. The goal will be to create annual training and recertification to help students earn privileges for use in the clinic. will Work Group Members: Ivan, Drs. Restrepo-Kennedy, Meredith, Boonsiraphant, Maia, and a COD IT representative.**

III. Role/Responsibilities/Location – Digital CDT, equipment, blocks (“secure dispensary” vs. open access) – Dr. Garcia

- Dr. Garcia has asked Ivan Medin to keep track of his time. This committee is asked to advise on position priorities. Dental laboratory support services are being realigned and redefined to support the predoctoral education program as a key priority. This has impact on developing a future action plan.

ACTION ITEM: Committee members should go back to depts to seek input and help identify needs. And see what needs are.

IV. Intraoral camera – DSP purchase – Dr. E. Teixeira

- Dr. Teixeira has received two new requests for purchases.

- o Faculty General Practice would like to purchase one (1) Schick Intraoral Camera System. Software is already installed.

Informal consensus was reached to support the request.

- o Howard Cowen from PCD requested purchase of three additional intraoral cameras; costs to be covered by administration for students and one additional camera for residents covered by the PCD department.
- Question: how many cameras needed? What is appropriate?
Dr. Murrell mentioned that FAMD plans to use the recent purchase of nine (9) cameras. At this time, the cameras are used primarily in DAU., and not as frequently in the D4 clinics as anticipated.

ACTION ITEM: HTC supports the limited purchase of an intraoral camera for FGP, as discussed.

Next meeting on June 8, 2016.

Minutes recorded: Ms. Michelle M. Krupp
