

Members Present: Drs. Christopher Barwacz (Chair), Michelle Krupp, Salahaldeen Abuhammoud, Ahmed Mohamed Mahrous, Marcos Vargas, Erica Teixeira, Amira Elgreatly, Brian Howe, Mr. Ivan Medin, Chuck McBreathy, Kelby Scandrett, Alex Hsieh (D2),

Absent: Drs. John Syrbu, David Jones, Kyle Stein, Piriya Boonsiriphant, Manuel R.P. Gomez, Mr. Parker Eller (D3),

Meeting called to order 12:04pm

I. **Approval of January 20, 2021 minutes** – Dr. Christopher Barwacz

MOTION: to approve the minutes as submitted and seconded.

MOTION APPROVED.

II. **Collegiate Rx Form** - Dr. Barwacz

- Recap of the three different options for new Rx form that the work group vetted:
 1. Update form by using collegiate prescription module that is embedded in AxiUm
 - Con - Doesn't meet the needs of what we would like to have in the clinic, and after Axon demo, it was deemed too cumbersome to be implemented in COD clinics
 2. Implement DDX Elab Software which is cloud-based and tethered to AxiUm
 - Pros - Could streamline prescription process
 - Cons – Free version is limited, no tethering of intraoral scans directly into DDX software, expensive
 - Might be a good option in the future
 3. Take existing collegiate prescription form and modernize/update to include more contemporary materials, as well as offer both paper and digital formats
 - Pros – Can be done through Adobe with more formatting options and still offers a paper form, cost is free
- Overall decision – Option three to update and modernize existing form
- Feedback/Questions – Would providers be able to pull reports from these forms? Mr. Scandrett will send Adobe link highlighting tracking options from within Adobe Acrobat.

III. **Scanner Maintenance & Organization** – Dr. I. Medin

- Students are leaving Omni cams all over the place in the sim/bench areas and are not plugging them in after being used. This causes issue as they need to be charged in order to be used for the next use and equipment could be damaged when not stored properly.
- Solutions:
 - Justine and team are going to build little cubbies for the machines in the SIM clinic, so they have a “dock” to charge
 - Signs will be put up to provide clear instruction on where to place Omni cams and proper storage
- Also discussed that D1 and D2's are losing their scans as they are not building their models first before saving their work

- IV. **Digital Faculty Workshops** – Drs. Abuhammoud & Barwacz
- A Qualtrics survey has been designed to gauge interest in a faculty Digital Dentistry Mini-Course
 - This survey will be sent out to the committee for feedback
 - Once feedback is provided, the survey will be sent out to faculty/staff early next week
- V. **New business for consideration** - Dr. Barwacz
- Dr. Ivan Medin made an informal request for a new 3D printer
 - Committee has asked for documentation on who is using the current 3D printer and the capacity
 - Who will be making this purchase, and will this be a collegiate resource?
- VI. **Roundtable Comments** – Committee
- No comments

Next Meeting: April 14, 2021

Minutes recorded: Ms. Kearstin Gehlhausen
